DETAILED ACTION

1. Receipt of the amendment filed February 16, 2005 amending claims 24-26, 32, 39, 43, 46, 51, 64-66, 74 and 79. Claims 24-26, 30-32, 38-40, 43, 44, 46, 51, 64-66, 68, 69, 74, 79 and 80 are pending in the application and are presented to be examined upon their merits.

Response to Arguments

2. Applicant's arguments, see arguments filed February 16, 2005 with respect to the rejection(s) of claim(s) 24-26, 30-32, 38-40, 43, 44, 46, 51, 64-66, 68, 69, 74, 79 and 80 under Fukatsu alone have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Fuerle (US 4,370,649)

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 24-26, 30-32, 38-40, 43, 44, 46, 51, 64-66, 68, 69, 74, 79 and 80 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fukatsu (US 5,302,811) in view of Fuerle (US 4,370,649)

Fukatsu teaches all the presented limitations with the exception of the amendments of February 16, 2005 those limitations being

as in independent claims 24, 46 and 64, a step of inputting price information *provided via a network along with* electronic information by an information provider terminal *said price information indicating a charge for use of the electronic information.*

Fuerle discloses an embodiment for display of electronic information via the network that has a price that is charged for the data (see Fuerle, col. 2, ll. 14-31). It would have been obvious for an artisan to modify the invention of Fukatsu with the aforementioned features of Fuerle to allow customers to conveniently pay for remote transmission of electronic data. Thus such a modification would save time and provide the Fukatsu system with flexibility of remotely presenting data to its customers. Thus such a modification would be an obvious expedient well within the ordinary skill in the art.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 3624

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
